

Table Fun

PEER GRADING WARNING

Peer grading means others will be looking at your work. For this entire semester you should keep everything in your web pages G rated. If you offend someone with your words or with images and they report it to me, I will have no option but to relay the complaint to the appropriate department for evaluation. Jokes are fun but offending someone is not. So, to be safe, don't do anything that could possibly be taken the wrong way and get you into serious trouble.

The following is a 2x3 table where each cell contains another table. Normally, I would say don't nest tables, but this is a fun exercise.

Create the table and the six inner tables as shown. The borders and centering will be accomplished with styles that you will be given.

<table><tr><td>1</td><td>2</td></tr><tr><td></td><td>3</td></tr></table>	1	2		3	<table><tr><td>1</td><td></td></tr><tr><td>2</td><td>3</td></tr></table>	1		2	3							
1	2															
	3															
1																
2	3															
<table><tr><td>1</td></tr><tr><td>2</td><td>3</td></tr></table>	1	2	3	<table><tr><td>1</td><td>2</td></tr><tr><td colspan="2">3</td></tr></table>	1	2	3									
1																
2	3															
1	2															
3																
<table><tr><td>1</td><td></td></tr><tr><td>2</td><td>4</td></tr><tr><td>3</td><td></td></tr></table>	1		2	4	3		<table><tr><td colspan="2">1</td><td>2</td></tr><tr><td colspan="2"></td><td>4</td></tr><tr><td>4</td><td>5</td><td>6</td></tr></table>	1		2			4	4	5	6
1																
2	4															
3																
1		2														
		4														
4	5	6														

I would suggest starting with creating a table that looks like the following and then replacing each letter with the appropriate inner table.

A	B
C	D
E	F

Copy the style section given below into the head section of your exercise4.html file with no modifications.

```
<head>
  <meta charset="utf-8">
  <title>Test Table</title>
  <style>
    table, tr, td {
      border:1px solid black;
      border-collapse: collapse;
      text-align:center;
      margin: auto;
      padding: 5px;
    }
  </style>
</head>
```

1. In your exercises directory on student2, create a file named exercise4.html.
 2. Create the table shown above with the six inner tables.
 3. Create a link to this file in the exercises portion of your main cs3440 index.html page.
 4. Validate your html file using the [w3.org validator](https://validator.w3.org/). Use the Validate by File Upload.
 5. Submit exercise4.html to the workshop on AsULearn.
 6. Make sure to peer review the exercise 3 assignments you have been assigned.
- NOTE THAT exercise 3 will require you to set up some folders. Read the instructions in the workshop.**
